A highly motivated B.Tech student with a strong foundation in **Python**, **JavaScript**, and **full-stack web development**. Eager to leverage hands-on project experience and problem-solving skills to build scalable applications and contribute to team success as a **Software Engineer**.

Education

Bachelor of Technology | Swarnandhra College of Engineering & Technology Narsapur, Andhra Pradesh |
Expected Graduation: 2026

Skills

- **Programming Languages:** Python, JavaScript
- **Web Technologies:** HTML5, CSS3, SQL
- **Desktop Application:** PyQt5
- **Tools & Platforms:** Git, GitHub, VS Code
- **Soft Skills:** Problem-Solving, Teamwork, Communication, Time Management,Presentation

---

Internship

Web Development Intern | MSSquare Technologies, Hyderabad, Telangana *August 2024 – November 2024*

- **Collaborated** with senior developers in the development and maintenance of web pages within a professional environment.
- **Wrote clean and well-documented front-end code** using HTML and CSS for core website components.
- **Applied knowledge of JavaScript to troubleshoot and resolve bugs**, ensuring a seamless user experience.
- **Gained practical experience** with a professional software development workflow.

Projects

Personal Portfolio Website | November 2024 | GitHub Link

- **Engineered** a responsive and user-friendly interface using modern **HTML** and **CSS** techniques.
- **Implemented** dynamic features and interactive animations with **JavaScript** to enhance user engagement.

GUI Weather App | March 2025 | GitHub Link

- **Engineered** a desktop weather application using **Python** and **PyQt5** to create a clean, graphical user interface (GUI).
- **Integrated** with an external **API** to fetch and display real-time weather data, including temperature and descriptions with corresponding emojis.
- **Implemented** robust error handling to manage network issues and invalid city names, ensuring a stable user experience.

Basic E-commerce Site | January 2025 | GitHub Link

- **Designed and built** a foundational e-commerce platform with a functional product catalog and shopping cart.
- **Utilized** HTML, CSS, and JavaScript to create the front-end, enabling users to browse products and manage their cart.
- **Managed** product data and user information by designing and interacting with an **SQL database**, demonstrating back-end development skills.

Certifications

- **Front-End Web Development** | MSI Technologies | 2024
